

與規管網約車服務有關的4項附屬法例小組委員會

LI Kelvin於2026年6月9日提交的意見書

本人覺得網約車牌照是給公司，而不是給個人，那在管理方面是政府對網約車公司，那在管理上會較為統一，亦能保持服務質素，另外應該設立扣分制，假如分數扣到相對分數，就收回牌照給序另一間網約車公司，正如現在的士就是因為不是這樣，導致服務質素參差不一，又無管入手管理，如果網約車牌照跟個人的話，那日後會產生的問題亦會較多。

與規管網約車服務有關的4項附屬法例小組委員會

黎恩華於2026年6月9日提交的意見書

在全球網約車合法情況下，應該全面開放網約車，香港係國際大都會城市，如果不夠車輛提示給遊客，會做成負面影響，另外香港係一個自由社會，會因為供求去自動調節，政府不應該干預市場，給市民及遊客選擇，每半年才去檢討一次

與規管網約車服務有關的4項附屬法例小組委員會

RANKIN Stuart於2026年6月9日提交的意見書

am writing to express my strong objection to the proposal to cap the number of ridehailing licences and allocate them via a lottery. While I understand the Government's intention to regulate the sector and ensure safety, the proposed mechanism will almost certainly lead to reduced availability, higher prices, lower service quality, and fewer economic opportunities for Hong Kong residents. It risks creating a system that benefits neither consumers nor drivers, while entrenching inefficiencies that Hong Kong has historically avoided.

1. Artificial scarcity will reduce availability and increase waiting times

A hard numerical cap—especially one allocated by lottery—creates artificial scarcity unrelated to actual demand. Hong Kong's transport needs fluctuate by district, time of day, weather, and events. A fixed number of licences cannot respond dynamically to these patterns.

The likely outcomes are:

- Longer waiting times, especially during peak periods or in less-served districts
- Reduced reliability, undermining the flexibility that makes ridehailing valuable
- Higher surge pricing, as supply cannot expand to meet demand

This contradicts the Government's stated goal of improving mobility and reducing congestion. A rigid cap simply freezes the market in place, regardless of real-world needs.

2. A lottery system does not allocate licences to the safest or most committed drivers

A lottery is, by definition, random. It does not reward:

- Experience
- Safety record
- Customer service
- Investment in training or vehicles

Instead, it creates a windfall for those who happen to win, regardless of suitability. Many winners may not intend to drive at all, but will instead lease or sell the licence, creating a secondary market that benefits speculators rather than working drivers.

This mirrors the experience of traditional taxi licences, where scarcity has led to high trading prices and rental arrangements that reduce driver income and increase consumer fares.

3. Reduced competition will lead to higher prices and lower service quality

Ridehailing platforms compete on:

- Price
- Speed
- Cleanliness
- Driver professionalism
- App functionality

Capping supply weakens competitive pressure. With fewer drivers and fewer

platforms able to operate effectively, consumers face:

- Higher fares
- Less innovation
- Lower service standards

Hong Kong has long benefited from open, competitive markets. This proposal moves in the opposite direction.

4. The policy harms prospective drivers and reduces economic mobility

One of the strengths of ridehailing is that it offers flexible, parttime, lowbarrier income opportunities. Many Hong Kong residents—students, retirees, caregivers, and those between jobs—rely on this flexibility.

A capped, lotterybased system will:

- Exclude most people who want to drive
- Force drivers to rent licences at high cost, reducing takehome income
- Create a small class of licenceholders who extract value from others' labour

This is the opposite of inclusive economic policy. Instead of empowering individuals to earn income on their own terms, it creates a gatekeeping mechanism that benefits a lucky few.

5. The proposal risks replicating the structural problems of the taxi licence system

Hong Kong's taxi licence market is a clear example of what happens when supply is capped:

- Licence prices rise far above their economic value
- Drivers must rent licences, reducing their income
- Consumers face inconsistent service quality
- Innovation stagnates

Introducing a similar structure for ridehailing will duplicate these problems, not solve them. The Government should avoid creating a second speculative licence market.

6. Better regulatory alternatives exist

If the Government's goals are safety, accountability, and fairness, there are more effective and less distortionary approaches:

- Mandatory background checks and training for all ridehailing drivers
- Vehicle safety and insurance requirements aligned with international standards
- Transparent datasharing between platforms and regulators
- Dynamic, demandresponsive licensing, rather than a fixed cap
- Platformlevel regulation, rather than restricting individual drivers

These approaches improve safety and oversight without restricting supply or harming consumers.

7. The proposal is inconsistent with Hong Kong's reputation for efficiency and openness

Hong Kong has historically been admired for:

- Marketbased solutions
- Efficient allocation of resources
- Avoidance of unnecessary bureaucracy
- Support for innovation and technology

A lotterybased cap on ridehailing licences is a step away from these principles. It introduces randomness, inefficiency, and artificial scarcity into a sector that thrives on flexibility and responsiveness.

Conclusion

The proposed cap and lottery allocation of ridehailing licences will not achieve the Government's stated objectives. Instead, it will:

- Reduce availability
- Increase prices
- Lower service quality
- Harm prospective drivers
- Create opportunities for speculation
- Replicate the failures of the taxi licence system

I urge the Government to reconsider this approach and instead pursue regulatory measures that enhance safety and accountability without restricting supply or undermining consumer welfare.

Hong Kong deserves a modern, flexible, and competitive mobility ecosystem—not one constrained by arbitrary limits and random allocation.

與規管網約車服務有關的4項附屬法例小組委員會

李國邦先生於2026年6月9日提交的意見書

我認為政府發放的建議網約車牌照數量太少，請考慮把該數量增加，牌照必需維持“用家為本”（例如牌照使用人，必須是司機本身，如果該司機長期沒有營運，必須在指定時間，例如一個月內收回牌照，並把牌照重新發放到執業司機）的方針，並避免把這些牌照變成“新的投資產品”，敬請特區政府和立法會各位議員考慮，網約車牌照數量增加。

李國邦工程師

本人不同意政府規管網約車限額：

全港僅設 10,000 個網約車輛許可證配額上限

與規管網約車服務有關的4項附屬法例小組委員會

SHARMA Abeer於2026年6月9日提交的意見書

Please do not impose restrictive regulations on ride-hailing services that arbitrarily control their supply. Services like Uber do not create problems for the general public or infrastructure. The more likely culprits for any problems are the traditional taxi sector, which is where the legco should be spending most of its efforts.

The quota of 10,000 permits is entirely unnecessary. The flexibility inherent in ride-hailing apps is necessary to ensure that supply of cabs meets up with demand. It allows part-time cab drivers to rise to the occasion and sort out any issues during busy periods like holidays, sports tournaments, festivals, etc.

From the perspective of an expat who is an occasional cab commuter, the ride-hailing app experience is just so much smoother and friendlier than dealing with traditional taxis.

與規管網約車服務有關的4項附屬法例小組委員會

廖卓斌先生於2026年6月9日提交的意見書

As a citizen, I urge you to increase the quota for ride-hailing services. I use ride-hailing services frequently, and I consistently see better attitudes from drivers and a much more pleasant in-car experience. In comparison, the taxi industry often has serious issues with smoke smell inside the vehicles and drivers' attitudes are worse. Please increase the number of ride-hailing licenses and reduce the waiting time. Also, when tourists visit Hong Kong, demand for ride-hailing services increases. This can leave local residents unable to successfully book a car due to too few vehicles, and they end up having to pay expensive fares.

與規管網約車服務有關的4項附屬法例小組委員會

劉兆雄先生於2026年6月9日提交的意見書

政府為規管網約車服務而發出10,000個牌照限額是脫離現實地嚴重不足，最終會導致市民等候網約車時間加長，甚至有機會在某些時段根本召喚不到網約車。除此以外，這個嚴重不足的網約車限額，會嚴重影響旅客來香港的出行交通體驗，對香港旅遊業及整體經濟帶來嚴重的負面影響。

本人提議將限額提升到至少25,000個。

與規管網約車服務有關的4項附屬法例小組委員會

ANDREY Jonathan於2026年6月9日提交的意見書

To the Legislative Council Subcommittee,

I would like to express my opposition to the proposed subsidiary regulations for ride-hailing services.

While I support appropriate safety and regulatory standards, I am concerned that imposing a strict quota of only 10,000 vehicle permits and allocating them through a lottery system will unnecessarily restrict supply and reduce competition. Such measures are likely to lead to longer waiting times, higher fares, and fewer transportation options for residents and visitors.

Ride-hailing services have become an essential part of Hong Kong's transportation network. Rather than limiting their development, regulations should encourage innovation, maintain high safety standards, and allow market demand to determine the number of vehicles required.

A rigid quota and lottery-based allocation mechanism risk creating artificial shortages and benefiting permit holders rather than consumers. Hong Kong should adopt a flexible and consumer-oriented framework that promotes fair competition and provides the public with reliable, affordable, and convenient transport choices.

I respectfully urge the Government and the Legislative Council to reconsider these proposals and to develop a regulatory framework that prioritizes the interests of passengers and preserves consumer choice.

Thank you for considering my views.

Yours faithfully,

Jonathan

我無論在世界各地，我都是一個網上平台叫車常客，希望政府不要限制或者加大之前嘅10000名額

與規管網約車服務有關的4項附屬法例小組委員會

韓星宇先生於2026年6月9日提交的意見書

限制網約車數目完全是不合時宜，跟不上世界潮流的舉動。市場機制帶來競爭。限制數目只會令到競爭減弱，從而服務變差。請不要擾亂市場機制來助長的士行業的歪風。

加入的士服務質素規管後亦不見有任何效果。

加強限制網約車只會令到質素進一步下降

與規管網約車服務有關的4項附屬法例小組委員會

王凱麟先生於2026年6月9日提交的意見書

政府應一視同仁 公平面對各方面各行業 不可能一面倒偏幫的士行業 消費者有選擇權 政府內部亦都有好多人坐網約車 我自己亦都係一個全職司機 以揸網約車為生 政府這樣是否想叫人去死？

與規管網約車服務有關的4項附屬法例小組委員會

陳慶朗先生於2026年6月9日提交的意見書

在規管網約車的政策討論中，我反對引入發牌制度。網約車原本的最大價值，在於它讓非全職司機能在空餘時間提供服務，獲得額外收入以應付家庭支出。這種具彈性的兼職模式，正是共享經濟的核心精神，也讓大量普通市民無需投入全職成本就能參與市場。

一旦實施發牌制度，不僅會大幅提高司機的進入門檻（如考試、費用、資格要求），更會令原本只打算兼職的司機感到壓力而卻步，最終導致在網平台上的司機數目顯著下降。供應不足的問題在繁忙時段尤為突出——當大量乘客同時有出行需求，例如下班高峰期或惡劣天氣，車輛數目不足將直接造成候車時間大幅延長，市民根本叫不到車，出行體驗大打折扣。

從乘客角度而言，網約車的普及正正彌補了傳統的士供應不穩的缺口，提供更快捷、可預測的出行選擇。若規管令車輛數目萎縮，受害的不只是司機，更是每天依賴網約車出行的廣大市民。與其透過發牌限制市場規模，政府應採用更靈活的管理方式，例如簡易登記制度、背景審查及平台責任監管，在保障安全的同時，維持足夠的車輛供應以滿足市民實際出行需求。

與規管網約車服務有關的4項附屬法例小組委員會

IU Siu-wai於2026年6月9日提交的意見書

The strict quota of 10000 licenses is obviously not sufficient to cater the needs of the general public, nor generating sufficient competition to malle improvement to existing taxi services.

the quota should be over 30000 to cater for the needs.

與規管網約車服務有關的4項附屬法例小組委員會

TARIQ Subhan先生於2026年6月9日提交的意見書

Not really beneficial for the commuters nor the drivers working for these services. It will definitely disturb both parties financially and mentally. Really have to change several policies regarding this.

JUSDI Ali於2026年6月9日提交的意見書

Hi sir / ma'am in legislative council

I am frequent raid hailing (uber) in Hong Kong, why? Because it is providing better services compared to current taxi available.

There are new taxi company in Hong Kong, but still most of them are not on par with Uber.

We choose uber because driver are not rude, drive safely and comfortable, no cigarettes smells and they are not circling around to get higher fare.

Please consider about limiting uber quota.

與規管網約車服務有關的4項附屬法例小組委員會

SWIRE Sebastian於2026年6月9日提交的意見書

Dear Sir/Madam,

I am writing as a Hong Kong resident to express my concern regarding the proposed ride-hailing regulations.

While I fully support appropriate safety and insurance requirements, the current proposals appear overly restrictive and risk reducing competition, increasing fares, and limiting consumer choice. Many residents rely on ride-hailing services because they are convenient, transparent, and often provide a better customer experience than existing alternatives.

The proposed licensing caps and regulatory burdens seem designed primarily to protect incumbent operators rather than to meet the needs of the travelling public. In practice, this may result in fewer available vehicles, longer waiting times, and higher costs for passengers.

Hong Kong should be encouraging innovation and competition while ensuring appropriate safety standards. Any regulatory framework should focus on consumer welfare rather than preserving existing market structures.

I respectfully urge LegCo and the Government to reconsider the proposals and adopt a more flexible, market-oriented approach that benefits passengers, drivers, and the wider economy.

Thank you for your consideration.

Yours faithfully,

Sebastian Swire

與規管網約車服務有關的4項附屬法例小組委員會

LEE Yichin於2026年6月9日提交的意見書

The current proposal on Uber severely limit future supply and my riding experience, by causing longer wait times, higher prices, and fewer choices. Lottery based also means there is more chance of being picked up by riders with poor review such as dangerous driving. This is highly detrimental to my rights as a consumer. Fewer choices also translate to poor experience by tourists and business travellers who are used to taking Uber from their country, thereby negatively affecting HK's status as tourism and international financial hub.

與規管網約車服務有關的4項附屬法例小組委員會

JOHNSTON Jenny於2026年6月9日提交的意見書

Why would you put a quota limit on ride hailing in a city that relies on transport? This is absurd that you would even think this was a good idea. There is no value especially since the public transport doesn't go to all areas regularly, leaving people stranded, and causing prices to increase. This is an awful idea and hope you come to reason to avoid this from passing.

CHAN Chi-hang先生於2026年6月9日提交的意見書

點解網約車牌發10000個咁少？跟本唔足夠。的士行業服務態度越來越差，本應由其他人取代。請盡快增加網約車配額

與規管網約車服務有關的4項附屬法例小組委員會

梁秋霞女士於2026年6月9日提交的意見書

本人由出街乘坐的士到網上有預約車輛服務，現出街前需要乘坐車輛就係網上預約車輛，不用等，網上有我預約嘅紀錄確保我嘅安全，收費已經計算好，不會因為塞車已增加乘車費用，司機質素例如禮貌，清潔度都有保障。

10000個網上預約車牌，相比起香港人口比例嚴重不足。最基本應有50000或以上。

與規管網約車服務有關的4項附屬法例小組委員會

YOUNG Jacqueline於2026年6月9日提交的意見書

I fully support uber as the main ride service as they provide the safest and most comfortable means of transport compared to the taxi service basest on the fact that majority of accidents on the roads occurred in the city are caused by taxi.

Besides, it will be a hindrance to advancement of Hong Kong's economy when the rest of the world employs the ride hailing services like uber and grab.

與規管網約車服務有關的4項附屬法例小組委員會

方詠茵小姐於2026年6月9日提交的意見書

本人希望政府能三思而為，應該參照周邊地區的比例數據，作出真正惠及香港人及旅客的決定。網約車已經於香港存在多時，亦已有一定市場及需求，而且已經趨向穩定發展，市場亦已平穩，政府於此時作出差距甚大的更改，必定再出現爭議及反對聲。

的士牌炒賣風氣盛行，此風氣不可助長，影響民生，離譜至極。今次理應是打壓最好時機。但現在只立一萬個網約車牌，實在有助的士牌炒風，民怨四起。

香港的士業界問題嚴重而悠久，一直大大影響香港聲譽，業界司機素質、年齡高、駕駛技術問題都十分嚴重，應借此舉更正。

此致！

與規管網約車服務有關的4項附屬法例小組委員會

YAU Philip於2026年6月9日提交的意見書

一個很簡單的道理

全世界除了香港如此的保護建製

保護一個無論在服務態度服務效率整個運輸環境和司機指數這麼差的環境下，因為有一些利益份子（車主）就去損害廣大市民能夠順利的能夠得到高質數的運輸服務

因為我住在半山，我實在對這種保護地勢的態度萬分的反感

麻煩你們查一下數據全世界有多少國家他們的轎車服務分別由平台提供還是由當地計程車司機提供？比較一下新加坡美國英國等等發達的國家甚至中國。

沒有一個這麼弱智的政府，純粹為了保護一小般人的利益，故意限制發牌的數量

實在是可悲

香港的經濟已經如此的差勁還在做這種事情

厚顏無恥無可藥救

我告訴你遲早這些行為會被廣大市民所唾棄

與規管網約車服務有關的4項附屬法例小組委員會

李濟民先生於2026年6月9日提交的意見書

牌照數量最少三萬個，跟現行市面Uber私機人數相約，以免供應不足，導至服務質素下降（如配對時間增長，費用增加），不要針對保护的士牌價對乘客大大不利。香港亦應追而限制Uber服務。

與規管網約車服務有關的4項附屬法例小組委員會

黎建男先生於2026年6月9日提交的意見書

彈性准入與動態安全機制

一、 實行「隨用隨付（Pay-As-You-Go）動態保險制」

傳統的士或商業車輛需要購買高昂的全年商業保險，這對只想「每週開幾小時」的兼職司機是巨大門檻。

建議機制：附屬法例應強制平台與保險公司合作，推出按分鐘或按行程計算的網約車專用商業保險。司機只要在平台點擊「上線」到「下線」的這段時間，系統自動從車資中按比例扣除保費。

如何保障乘客與自由：這確保了不論司機是全職開 40 小時，還是純粹出門順路載客 15 分鐘，乘客在每一秒行程中都享有完全等同（甚至高於）的士的法定商業保險保障。對司機而言，完全沒有前期固定保費的財務壓力，真正實現「想做就做」。

二、 建立「個人單一合規證（不需要分級，只需一證通）」

政府不用去管你是全職還是兼職，全港只有一種「網約車司機許可證」。

建議機制：任何人只要滿足基本門檻（例如持牌 3 年以上、無嚴重危險駕駛與暴力犯罪紀錄），通過一個簡單的線上安全評估，即可獲得許可證。

動態資格過濾：這個許可證是動態的，由運輸署與警方建立後台系統。如果司機在日常生活中因其他事情（如醉駕、涉嫌暴力罪行）被捕，系統會在數秒內自動吊銷或暫停其許可證，持牌平台會同步收到指令將其強制下線。

如何保障乘客與自由：不限制你甚麼時候開車，但確保不論你何時上線，你此時此刻在法理上和背景上都是 100% 安全且無犯罪紀錄的合資格者。

三、 引入「乘客即時安全網（科技代管取代行政限制）」

既然不限制司機的自由和上線時間，那就要用最強的科技手段來防止「疲勞駕駛」和「突發安全事件」，這也是立法會最關心的痛點。

車載動態監控條款：附屬法例可規定，所有參與網約車的車輛，必須啟動由平台App或車載行車記錄儀提供的動態安全功能。

疲勞眼動偵測：利用智能手機的前置鏡頭，透過演算法動態偵測司機的眨眼頻率和面部疲勞特徵。一旦偵測到嚴重疲勞，系統不論你上線了多久，都會為了安全觸發「熔斷機制」，強制要求在路邊休息 20 分鐘。

異常行程報警（Glow-tracing）：系統自動比對導航路線，若發現車輛無故駛入荒僻地點或長時間異常停滯，平台客服與警方會即時介入。

如何保障乘客與自由：這不是限制你的「工作時間」，而是確保你正在開車的「當下狀態」是清醒且安全的。你精神好、想開多久就開多久，直到科技偵測到你真的累了，才為了公眾安全進行短暫干預。

與規管網約車服務有關的4項附屬法例小組委員會

劉子康先生於2026年6月9日提交的意見書

強烈要求網約車發牌數量增至30,000個，以確保現時網約車的服務質素及收費得以維持。

政府制訂政策應切實考慮市民實際需要，不應只顧及個別持份者的利益。

與規管網約車服務有關的4項附屬法例小組委員會

PARRY Stephen先生於2026年6月9日提交的意見書

I am concerned that the quota is too low. I use Uber for most journeys, having experienced numerous problems with local taxis, and I have even taken one taxi driver to court (and won) for overcharging and using his mobile whilst driving, a thing I would experience 2-3 times a month on airport journeys in particular. Nothing has changed, and at least Uber is transparent and can't overcharge you or take long and incorrect routes.

Uber and ride-hailing services are the norm in all developed countries. I use them when I travel globally on business monthly. They are also key to the local economies and provide security and seamless transport for all visitors. Transport is the first and last experience visitors to any country have, and it needs to be positive. My clients, family, friends, and I have all experienced problems with local taxis, and we now opt for ride-hailing services. It's safer, cleaner and transparent. It's customer service-led, and that's the good impression I want all my clients, friends and family to experience in Hong Kong.

It's hard enough to get an Uber now; the new quota is just going to make matters worse. Waiting times are important for business and personal journeys. Waiting 5-10 minutes now is bad enough; the reduced quota will make it 10-30 minutes (and worse in peak hours).

It's a modern world, and Hong Kong needs to move with the times. I urge the government to reconsider the quota and allow residents and visitors to enjoy the city at its best, with safe, convenient and transparent rail-hailing services. Taxis simply don't meet our needs, and despite their promises to change, nothing has changed in my 20 years here.

與規管網約車服務有關的4項附屬法例小組委員會

崔智成先生於2026年6月9日提交的意見書

I join in calling for review and revision to the proposed legislation. As an infrequent user of the ride hailing service “uber”, I heavily rely on uber for emergency rides, as uber is a very convenient, relatively affordable and reliable service. Where I find the most value is knowing exactly how much I will need to pay prior to the service.

While I am unsure of the specifics, from what I understand this will be devastating to uber’s services in Hong Kong. I understand and would support stricter regulation and stringent enforcement, such as random checks, even if it means less efficient and bureaucratic effects. I believe that such a strict legislation specifically on the number of licenses might be excessively restrictive and harmful for the current ride hailing service market. Perhaps it also acts as negative signalling to other foreign MNCs and have other secondary consequences to investment.

I would strongly encourage reconsidering this change

與規管網約車服務有關的4項附屬法例小組委員會

MILLER Matthew於2026年6月9日提交的意見書

I urge LegCo to rapidly allow the number of drivers to scale with market need. Ride services are the ONLY force incentivizing taxi drivers to improve their game, which is sorely needed as so many of them are poor drivers and surly, and whose cars are often stinky and lacking in reasonable air-conditioning.

The market badly needs more competition, not less, to ensure convenient, safe and pleasant transport for consumers. A reduction in the number of ride-hailing drivers would be severely inconvenient for my family and many others who rely on the ease and comfort provided by the current Uber drivers, many of whom have invested in safe, clean, modern vehicles to serve their customers.

Ride-hailing services are especially important for expats and foreign visitors, who have difficulty communicating with most taxi drivers.

Please let the market decide how many drivers it can support. Hong Kong is supposed to be a laissez-faire economic environment, so the government's inclination to interfere in this area is puzzling and counter to consumer interests.

與規管網約車服務有關的4項附屬法例小組委員會

王珽熙先生於2026年6月9日提交的意見書

增加牌照，才能確保消費者有選擇權利及減少等候時間，為大眾提供便利，同時牌照增加令行業有所競爭，有利說好香港的故事

與規管網約車服務有關的4項附屬法例小組委員會

楊南翔先生於2026年6月9日提交的意見書

1.) 本人希望多些網約車，最好不限數，由市場決定；
2.) 設扣分制；
3.) 另外年費申請、有實制出勤紀錄。

吳偉昌先生於2026年6月9日提交的意見書

不應發牌數量設限，令大量人失業，想做兼職都不行

與規管網約車服務有關的4項附屬法例小組委員會

RENELL Bernard於2026年6月9日提交的意見書

The proposal seems unnecessarily complicated and is likely to make ride-hailing less efficient and more difficult. Can't we just follow the same approach as China or Singapore? Everything seems to work well there (including licencing of drivers)?

與規管網約車服務有關的4項附屬法例小組委員會

WONG Gorden先生於2026年6月9日提交的意見書

本人就政府目前針對網約車服務所建議的規管框架，特別是「全港設10,000個網約車輛許可證配額上限」、「採用抽籤方式分配配額」以及「動態調整機制」等附屬法例建議，表達強烈不認同及反對意見。

現將主要理由及考量陳述如下：

一、 10,000個配額上限：嚴重扭曲市場供求，損害市民出行體驗

強行設立 10,000 個許可證的硬性上限，完全無視了香港市民及訪港旅客對點對點優質交通服務的龐大實際需求。

1. 等候時間延長： 人為限制車輛供應，將直接導致市民在尖峰時段或偏遠地區的配對車輛時間大幅拉長，嚴重影響出行效率。
2. 車費被迫推高： 在供不應求的經濟定律下，配額限制必然引致網約車車費飆升，最終將額外成本轉嫁至消費者身上，加重市民生活負擔。
3. 出行選擇減少： 此舉壓縮了市民在傳統的士以外的合法出行選擇，與香港作為國際智慧城市的發展藍圖背道而馳。

二、 抽籤分配機制：缺乏科學依據，漠視服務質素

建議採用「抽籤方式」分配許可證，在公共政策管理上極不合理。抽籤純屬運氣，無法確保獲得許可證的營運者具備優良的服務紀錄、安全的駕駛態度或優質的車種。此機制不僅無法鼓勵業界提升服務質素，更可能扼殺真正有志於長期投入、提供高水準服務的專業司機之生計。

三、 動態調整機制：存在滯後性，難解燃眉之急

雖然政府提出動態調整機制，但行政審批與數據收集往往存在嚴重的滯後性

。市場需求的轉變（如旅遊業復甦、大型盛事舉辦）是實時且急劇的。依賴體制的「動態調整」，根本無法及時應對市場的即時短缺，只會流於「頭痛醫頭」的被動局面。

總結與建議

規管網約車的初衷應是「保障乘客安全」與「提升服務體驗」，而非「保護既得利益」或「限制市場競爭」。

本人強烈建議小組委員會重新審視上述附屬法例：

1. 取消或大幅放寬 10,000 個配額上限，改以市場需求為導向。
2. 廢除抽籤制，改以「資格審查」及「服務質素評分」作為發牌標準，汰弱留強。
3. 建立真正靈活、透明的市場化機制，讓市民擁有更多元、高效且價格合理的出行選擇。

謝謝。

市民 黃先生

李應新先生於2026年6月9日提交的意見書

我認為網約車平台應該全面開放，司機不需要任何名額人數限制。

與規管網約車服務有關的4項附屬法例小組委員會

何小姐小姐於2026年6月9日提交的意見書

請政府多批網約司機配額，締造良性競爭，以免上升價格由消費者負擔；

另外，在首批司機申請時徵收行政費用，如確認是全職司機可退回，同時持續地要求獲分配配額之司機提交網約車全職收入證明，以續配配額，最終可確保全職司機優先獲得配額，穩定基層基本收入。

請慎重考慮增加配額。

何家龍先生於2026年6月9日提交的意見書

- 1) 希望不需要車主登記本人，可提供夫婦證明能用車作為網約車，一車最多登記夫婦2人為司機
- 2) 保險由平台提供

與規管網約車服務有關的4項附屬法例小組委員會

郑世強先生於2026年6月9日提交的意見書

意見如下：

1. 網約車原意是釋放資源，一些沒有使用的汽車可在空餘時間用作接載乘客，釋放未用資源。因此，大部分司機都是兼職性質，每人每天都是工作短時間，所以需要發的牌照，遠遠要比1萬個多，我相信要5萬-10萬個以上，才理合。
2. 因為大部份司機都是兼職，所以無法承擔第三者每年保險費用，建議將第三保險的費用融入車用內，令兼職司機也能承擔費用
3. 為免整體汽車數量增加，建議有自己私家車才能申請網約車牌照。

limiting supply will make it more expensive for consumers. Taxis are already expensive enough

與規管網約車服務有關的4項附屬法例小組委員會

周卓弦先生於2026年6月9日提交的意見書

本人作為香港市民，一直密切關注本港個人化點對點交通服務的發展。欣悉小組委員會正就與規管網約車服務有關的4項附屬法例邀請各界提交意見，特此致函，就增加牌照數量、規管司機質素及建立合理定價機制三方面提出以下建議，期盼能為制定更完善的法規提供市民角度的參考。

一、 適度增加網約車牌照數量，滿足公眾出行需求

現時本港市民及訪港旅客對優質、便捷的點對點交通服務需求日益增加。政府在制定規管框架時，不應過分限制牌照供應，而應增發足夠數量的網約車牌照：

緩解供求失衡：若牌照數量設置過低，將無法應付日常高峰期及遊客區的龐大需求，導致市民候車時間過長，未能根本解決現時點對點交通「搭車難」的痛點。

促進良性競爭：容許適當數量的合資格車輛投入市場，能打破現有市場的壟斷，透過健康的市場競爭，推動整體個人化交通服務質素的提升。

二、 嚴格規管司機質素，保障乘客安全與服務體驗

網約車服務的合法化必須建立在安全和專業的基礎之上。政府應透過附屬法例，對網約車司機設立明確的准入機制與日常監管：

完善背景審查與資格認證：要求網約車司機必須持有特定年期的駕駛執照，並強制通過刑事紀錄（如無性罪行、無嚴重暴力犯罪紀錄）及良好駕駛紀錄的審查，確保乘客的人身安全。

引入考核與懲罰機制：平台與政府應共同監督司機的服務質素。針對屢獲差評、拒載或涉及違規行為的司機，應設置暫扣或吊銷網約車駕駛資格的機制，以維持整個行業的專業形象。

三、 規管收費機制，嚴禁繁忙時間「坐地起價」

目前部分網約車平台採用的「動態加價」機制，在惡劣天氣或繁忙時間往往會飆升至不合理水平，嚴重剝削消費者權益。對此，法例應介入合理的收費規管：

設立附加費「封頂機制」：建議政府在附屬法例中，為繁忙時間或特殊情況下的加價幅度設立清晰的最高倍數上限，防止平台及司機在市民急需出行時，收取過於高昂的費用。

提高收費透明度：強制要求平台在乘客確認行程前，必須清晰顯示最終收費，保障消費者的知情權，避免市民承擔不合理的經濟負擔，確保網約車作為公共輔助交通工具的普惠性。

結語

引入網約車法規是推動香港智慧城市發展的重要契機。本人期望小組委員會能充分考慮市民大眾的福祉，透過增加供應、嚴控質素、平抑物價的原則，制定出既能保障市民安全、又能維持合理負擔能力的規管方案。

與規管網約車服務有關的4項附屬法例小組委員會

高文助先生於2026年6月9日提交的意見書

香港網約車帶來很多方便，無論出行或工作都係點對點服務，而且車內環境舒適，我今次想建議網約車服務，能夠有更多牌照數量外或者不設限制，亦希望平台公平競爭，在乘客角度來說最緊要安全及網約車的穩定性及可靠性，以及他們對乘客可信性，服務態度好先會有更多單數及回頭客，希望政府可以聽到我既寶貴意見

黎啟康先生於2026年6月9日提交的意見書

I am writing as a resident and regular commuter in Hong Kong to express my deep concerns regarding the Government's recent regulatory proposal for ride-hailing services. Specifically, I wish to address the proposed hard cap of 10,000 vehicle permits, the lottery-based allocation mechanism, and the implementation of the dynamic adjustment mechanism.

While I fully support the legalization, formal regulation, and safety oversight of personalized point-to-point transport services, the current framework introduces rigid constraints that will severely degrade the daily commuting experience of Hong Kong citizens and visitors alike.

I urge the Subcommittee to consider the following arguments and recommendations before finalizing these regulations:

1. The 10,000 Permit Cap Artificially Restricts Supply and Harms Consumers

A rigid cap of 10,000 permits across all platforms fails to align with the actual, fluctuating market demand of a major metropolitan city. Point-to-point transport is heavily reliant on flexibility, especially during peak hours, severe weather events (such as typhoons and rainstorms), and public transit disruptions. Imposing this strict artificial limit will inevitably result in:

Prolonged Wait Times: Passengers, particularly those in non-urban or New Territories districts underserved by traditional taxis, will face significantly longer waits for a ride.

Severe Price Inflation: Artificially low supply coupled with high demand will trigger frequent and extreme surge pricing, making a vital transport alternative unaffordable for ordinary citizens.

Reduced Choices: Restricting the fleet size limits the variety of vehicle options available to consumers, including those requiring wheelchair-accessible transport or larger vehicles for families.

2. The Dynamic Adjustment Mechanism Lacks Vital Transparency

While the proposal includes a mechanism to adjust the permit quota dynamically based on operational data, it currently lacks clear, predictable, and publicly available metrics. For this mechanism to protect consumer interests effectively, it cannot rely on slow, bureaucratic reviews. It requires transparent, data-driven benchmarks—such as average passenger waiting times or booking fulfillment rates. If these indicators show that demand is not being met, the cap should automatically adjust upward.

As a world-class smart city, Hong Kong's transport policy should foster healthy competition, technological innovation, and consumer choice alongside the traditional taxi industry, rather than throttling modern services.

I respectfully request that the Subcommittee recommend the following amendments to the proposal:

- Substantially raise or remove the initial 10,000 permit cap to prevent severe market distortions and protect consumer pocketbooks.

- Establish and publish clear, quantifiable triggers for the dynamic adjustment mechanism so that vehicle supply can scale fluidly in real-time with public demand.

Thank you for your time, consideration, and dedication to protecting the interests of Hong Kong's commuting public.

HALLATT Peter先生於2026年6月9日提交的意見書

Regulation of ride sharing is critical to ensure safety and fairness.

However, this should not to be the detriment of the consumer and the right to choose.

Limiting the licences for Uber by half will greatly impact the choice of people. Choice is important as whilst taxis are great and serve a purpose at times there are needs beyond this. This includes but not limited to, the certainty i.e. we live in a remote area and taxis always cancel whilst Uber arrives as it states. Uber allows flexibility now to request child seats allowing a safer journey for my children. Uber allows one to select a type of vehicle suitable for ones needs.

All of this is important as it pertains to choice. Consumers should have the choice.

Uber also allows for tourists to easily transition to local transportation, whilst taxis now allow for an electronic payment, most of this is not for internationally recognised payment types.
